

Where to Buy NZ Walnuts

New Zealand Grown Walnuts

This page is here to help you locate places to buy fresh genuine New Zealand grown walnuts. Scroll down to find listings of places where you can buy them.

We list walnut stockists, retail outlets, shops, markets, walnut orchards that you can purchase directly from in both the North and South Island and two factories.

The two commercial walnut processing factories in New Zealand are both in the South Island. Walnuts New Zealand Co-operative limited at West Melton in Canterbury and Uncle Joe's Nut and Seed Products at Blenheim. Both are listed on this page.

Make sure you buy fresh New Zealand walnuts, **they taste much better** and

they're grown here in New Zealand by dedicated people who love being part of an industry that grows food on trees. It takes fifteen to twenty years, and longer in some cases, before production gets to a level that could be considered commercial so the commitment that growers have is real.
